<p>NOTE: A deposit of \$1,000.00 is required to book surgery (excluding in-office procedures). Two weeks prior to surgery, 50% of the total fee is due. The balance must be paid in full by the date of the procedure.</p>		<p>TOTAL</p>

By signing below, I acknowledge that I have read and understood the items described on this page and agree to be bound by its terms and conditions:

Patient's or guardian's signature

Date

WHAT'S INCLUDED?

The above fees include Dr. Pearson's professional fee as well as the fees for the surgery center and for the anesthesia and recovery room teams.

- The fees above do NOT include the cost of the pre-anesthetic exam or any additional testing or lab work required since these services are determined by those providing such services and who are not affiliated with Pearson Facial Plastic Surgery, P.A.

CONSULT FEE

In appreciation of our patients who book surgery within 30 days of the initial consult, **the consultation fee will be credited toward your total fee.**

- Surgery itself does not need to take place within 30 days, only the booking of a surgery date. This credit does not apply to in-office procedures such as injections (e.g., Botox, Restylane, Radiesse, Artefill, etc.).

FEE GUARANTEE

The fees proposed herein are guaranteed for 90 days from the time of initial consultation to the time that surgery is scheduled.

- After 90 days our fees are subject to change. Again, surgery itself does not need to take place within 90 days, only the booking of a surgery date.

CANCELLATION POLICY

Due to the considerable expense our practice incurs if surgery is cancelled on short notice, **50% of the total fee is non-refundable if you cancel surgery or need to change dates within two weeks of the scheduled procedure. For in-office procedures, patients who no-show or cancel with less than 48 hours notice will be charged \$100.00 or in the case of Botox, the entire Botox fee.**

- Certain exceptions may apply, and this policy does not apply when medical conditions require changing or canceling surgery, of course.
